JPSUN WOODEN DOOR PRODUCTS

Anhui Jinpeng Energy Saving Technology Co.,Ltd.

01

COMPANY PROFILE

Quality door and window leader

"JPSUN" is the brand of Anhui Jinpeng Energy Saving Technology Co.,Ltd. As a member enterprise of Jinpeng Holding Group, we were established in 1993 and have been specializing in the door and window production industry for over thirty years. Dedicated to energy conservation and environmental protection, we primarily produces aluminum alloy doors and windows and plastic doors and windows. We consistently focuses on innovation, continuously introducing advanced production equipment and technologies to ensure high quality and high performance of its products. Moreover, the company emphasizes eco-friendly principles by developing and promoting energy-saving window products, contributing to green building and sustainable development. We continuously explore customer needs across various countries and markets, offering tailored solutions from design optimization to smart manufacturing, logistics, and comprehensive after-sales service.

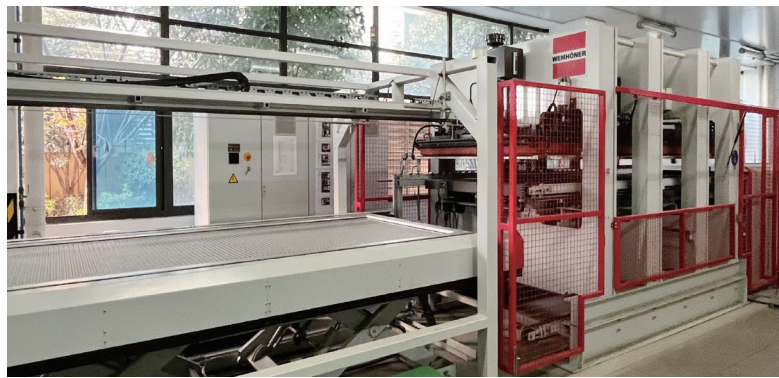

JPSUN
DOORS AND WINDOWS

02

MAIN EQUIPMENT

The wooden door workshop adopts advanced, fully automated and intelligent technologies, introducing an innovative production model into the manufacturing process. It enables digital production, streamlines workflows, reduces material waste, and improves flexibility in frequently used production areas. These capabilities help lower costs, enhance market competitiveness, and better support customers' growing demand for personalized customization.
